

## BBQ ISLAND TOUR/OVERNIGHTER TOUR

### INTRODUCTION

This document has been written to avoid any confusion or misunderstandings, please read, sign, and return these instructions as part of your confirmation of the tour.

Noukhada will always assume that you have kayaked before and understand the concept of kayaking a distance, camping rough, and 'making do' on a remote island.

### SUMMARY OF KEY ISSUES TO CONSIDER

- Has your group kayaked before?
- Has your group camped rough before?
- Pack lightly - you will need to carry all of your own personal belongings.
- Bring your own food and cook it yourself.

### TRANSPORTATION

These are expeditionary style trips. One kayak/ canoe and two cool boxes will be provided to carry some of your food and our cooking & BBQ equipment ("eqpt"). You will need to carry all of your own personal belongings on your kayak, so pack lightly!

### PADDLING ABILITY

Please consider the kayaking ability of all members of your group. You must have kayaked before.

### FOOD AND BEVERAGE ("F&B")

F&B is more problematic than tents and sleeping bags and hence you must plan your own menus, bring your own food and cook it yourself. We can help with the preparation of the fire and grills.

### CLOTHING

You will need clothing to kayak in and dry clothing to sleep in. The temperature will drop early in the morning (in winter).

### TIDES

Please consider the tides on the dates because they will alter your route to the island. If the tide is high, then the normal route to the island is 1.5km and should take about 45 minutes to paddle there. If the tide is low, then the route becomes 3km and will take about 80 minutes to paddle.
